# Overview of the Philippine Action Plan for Sustainable Consumption and Production (PAP4SCP)

1<sup>st</sup> Sustainability Solutions Exchange (SSX) Conference  
23 March 2022

**Director Nieva T. Natural**

NEDA Agriculture, Natural Resources, and Environment Staff

## Philippine Action Plan for SCP (PAP4SCP)

*Guiding framework to facilitate green recovery as well as influence and steer sustainable behavior and practices.*

*Programmatic policy reforms and actions over the short (2022-2023), medium (2023-2030), and long-term (2030-2040)*

# PAP4SCP Strategic Framework

## VISION

Filipinos, both the present and future generations, enjoy a  
*“matatag, maginhawa at panatag na buhay”*

## GOAL

More Filipinos produce and consume green goods and services to accelerate the shift towards sustainable and climate-smart practices and lifestyles

## OUTCOME

Social and environmental impacts of economic activities in market system internalized and integrated

## SUB-OUTCOME

Economic, social, and environmental costs and benefits of production and consumption processes valued

Natural resources efficiently used and equitably allocated

## INTERMEDIATE OUTCOME

Natural capital accounting institutionalized (IO 1.1)

Ecological limits and negative externalities determined (IO 1.2)

Innovation and investment in green technologies and systems increased (IO 2.1)

Sustainable resource allocation and equitable sharing schemes established (IO 2.2)

## ACTION NODES

*Policy and Regulation*

*R&D, Innovation, and Technology*

*Infrastructure*

*Promotion and Education*

# Priority Actions

Steer innovation and investments on green technologies and create business models to reduce waste and improve resource-use efficiency

Scale-up ecolabelling and other green certification schemes (e.g. green jobs, green buildings/hotels, organic produce)

Conduct life cycle analyses, promote urban mining and develop alternative packaging solutions

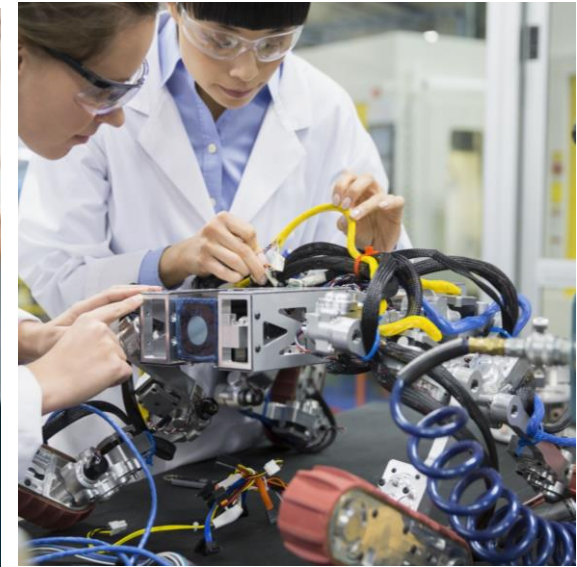

Encourage greening supply chain and sustainability reporting initiatives

## Legislative Reforms

# ***Ways Forward***

- Venturing into green and sustainable resource-based enterprises and fostering green jobs
- Encouraging investments and leveraging sustainable finance to develop and adopt green technologies and systems, including circular economy solutions
- Promoting sustainable lifestyles and strengthening ecolabelling and green certifications
